Research Consent

Can gpt3.5 answer questions that score higher than university programming students in code quality?

- I understand that if I agree to participate in the study, I can withdraw my participation and consent at any time, without reason.
- I understand that I can refuse to answer any questions without reason.
- I understand that if I withdraw from the study, any collected data will be destroyed.
- I have read and understood the provided cover sheet explaining the purpose of the study.
- I have read and understood the provided cover sheet explaining what my participation will entail.
- I understand that participation involves answering programming questions that will undergo code analysis.
- I understand that I will not benefit from participation.
- I understand that my participation in the study will remain anonymous and that no personal details will be involved in the study.
- I understand that the only collected personal information is either my GitHub account name or/and email address.
- I understand that collected personal data will be stored in line with GDPR regulations.
- I understand that all data collected will be destroyed when the study has concluded in April 2024.
- I understand that I am free to contact the researcher anytime, at: tc262389@falmouth.ac.uk, Thomas Chambers
